\*Headline

long-term

A high level delegation of the Canadian International Development Agency (CIDA) will soon go to Cuba to finalize a CIDA loan to Cuba of 10 million dollars at three percent interest and a straight three million dollar grant. This week, ~~Canadian~~ a Canadian University Academic Advisory Board has been in Cuba inspecting one CIDA-sponsored program ~~at the University of Havana~~ at the University of Havana. Here is the story.

~~Since~~

Over the past three years, forty Canadian professors have given graduate engineering courses to 300 students at the University of Havana Cuba's 1st program ~~in a program~~ that leads to a Master's Degree in Engineering. The ~~proj~~ Canadian ~~university~~ program here in Cuba has been funded by ~~the~~ CIDA one million dollars and managed by the Canadian University Service Overseas ~~(CUSA)~~ (CUSA) Wally McGlocklan, dean of engineering at the University of Waterloo ~~Waterloo University~~ who is on the Academic Advisory delegation now inspecting the results of the CIDA-sponsored project, considers it to be highly successful.

Wally McGlocklan 20 seconds -

The Cubans also view as a success and when it ~~the~~ Master's degree program comes to ~~end~~ an end next year, it is ~~very~~ possible that Cubans will ~~once again~~ seek will be sought on Cuba Canadian help in turning out ~~the~~ first Doctorates in Engineering.

This is Lionel Martin in Havana for CBC Radio News.
