this is lionel martin in Havana,, the service message -

One of the things Fidel Castro's government is proudest of is its public health system. Now the Cuban government and the Cuban medical profession is hopping mad at the United States government for refusing ~~entre~~ visas to ~~five~~ five Cuban doctors who wanted to attend the Thirteenth Congress of Latin American Orthopedic Society which ends today in San Juan Porto Rico. here is the item.

The Cuban society of orthopedic surgeons calls the denial of the visa to attend the international congress illegal and inhuman. ~~axnawxxx~~ The Cuban officials say it is just another arrogant act of the ~~Regan~~ Reagan administration. They say that this year, on numerous occasions, cuban scientists, engineers and specialists in other fields have been refused visas by the U.S. State Department to attend international conferences and congresses in the United States. One ^{author} official said the U.S. should follow the lead of ^{the Canadian} ~~Canada~~ that ~~gives~~ ^{gives} entry visas to Cubans who want to attend international conferences and other events in Canada. And these officials say when Cuba is host to international events, ~~exxybxy~~ all specialists, ~~ixciux~~ including Americans have always been welcome.

for cbc news this is lionel martin in havana.
