The wounded and dead are to be returned in a swiss air plane ~~which~~ chartered by the international red cross.

At the same time. president castro said it was cruel of the united states to not send a list of the cuban survivors and dead to the cuban government. He even suggested that by not sending a list they would be able to make certain cubans disappear. He also said that the united states might want to hide the fact that some 35 cuban women resisted the U.S. onslaught and that some of them might have died in the fighting.
