this is lionel martin in havana ...~~the~~ cubans including the wounded who were on the island of grenada when u.s. forces landed have ~~has~~ been repatriated to Cuba. Attention is now directed at the return of the cuban dead. here is the story.

The number of cubans who died in the fighting in grenada is presumed to be ~~twenty~~ four. But most of them were buried ~~about~~ soon after being killed by ~~friendly~~ ~~sanitary workers~~ wherever they were found by Grenadian sanitary workers. So while many bodies have been exhumed, nobody is quite sure which are the Cubans.

The powers that be in grenada have refused permission for cuban forensic experts to visit that island. So ~~the~~ exhumed bodies were flown over to barbados where ~~exhumed~~ Cubans forensic personnel will attempt to identify them.

When that job is ~~done~~ done the bodies will be flown to Cuba where they will ~~lie~~ lie in state in revolution ~~square~~ ~~view~~ and ~~viewed~~ where cubans will file ~~past~~ past the coffins. It is expected then that Cuban president Fidel Castro will make ~~a~~ a major speech at a mass rally.
